Reznor EEDU Series Indoor Duct Furnaces

- Single Stage
- Power Vented
- Provides an annual fuel use improvement of up to 25% compared to gravity-vented duct furnaces
- Uses a sealed vent product collection chamber instead of a draft diverter to reduce loss of dilution air
- Redundant single-stage combination gas valve
- Spark-ignited intermittent safety pilot with electronic flame supervision
- Burner rack access via a pullout drawer

Cambridge Unit Heaters

Cambridge Engineering SA Series Direct Fired High Efficiency Space Heaters

- SA-Series Blow-Thru® Space Heaters are 40% to 70% more energy efficient than all other types of indirect and direct gas-fired systems used to heat/ventilate large commercial and industrial buildings
- Compact, lightweight, pre-piped and pre-wired to make installation and start-up easier
- Compact size takes up no valuable interior storage or production space
- Certified for both 160° temperature rise and 160° discharge temperature at 0° outside air
- 100% fresh outside air
- Unique blow-thru design extends the life of critical components
- 2 year warranty on the heater and 5 year warranty on the stainless Cambridge burner
