Subject: **New Daikin ONE+ Smart Thermostat Option for Amana® Brand Systems**

We are pleased to announce a new thermostat option for Amana® brand contractors and distributors. To provide homeowners with more opportunities to upgrade their experience interacting with their systems, Daikin ONE+ smart thermostats may now be offered by Amana brand contractors and distributors as an upgrade option to Amana brand smart thermostats. Daikin ONE+ thermostats are compatible with Amana brand communicating unitary equipment and can be substituted for the Amana brand smart thermostat without exception. The Amana brand smart thermostat remains readily available as an option for Amana brand dealers.

Daikin ONE+ Smart Thermostat

The Daikin ONE+ smart thermostat offers several unique features that differentiate it from the Amana brand smart thermostat, as shown in the table on the next page.
